

How to change *cloud email password.*

STEP 1

Use this link to open browser <https://w3i.cloud/interface/root#/login>

STEP 2

After LOGIN Interface click here to **settings** tab

STEP 3

Click **Change Password** button

A screenshot of the 'Account' settings page. On the left, a sidebar lists options like Profile, Signatures, Autoresponder, etc. The main area shows a 'User' section with fields for Language (English), Time Zone (UTC+03:00 Kuwait, Riyadh), and Recovery Email Address (sumeshchelari@gmail.com). At the bottom of this section, a red box contains the text 'Click to Change Password'. Above the user section, there are 'Save' and 'Cancel' buttons. To the right, a sidebar shows 'Webmail' settings for theme (Light), delete action (Move), text encoding (Western), font (Arial), default font (vpsum), and preview direction (Right).

STEP 4

Enter old password then type new password and confirm again

Type Old Password

STEP 5

Click SAVE

The screenshot shows a 'Password' dialog box overlaid on a webmail interface. The dialog box contains fields for 'Old Password *' (with a masked input), 'New Password *' (with a masked input), and 'Confirm Password *' (with a masked input). Below these fields, a note specifies password guidelines: 'Contain one UPPERCASE letter', 'Contain one lowercase letter', 'Does not match your username', 'Contain any number 0 through 9', 'Contain any special character such as #, @, &, etc.', and 'Is at least 8 characters long'. At the bottom of the dialog is a large red button labeled 'Click to SAVE'. To the right of this button is a blue 'Save' button, which is highlighted with a red circle and a red arrow pointing towards it. The background of the dialog is white, while the main webmail interface has a grey header bar.
